Faculty Training Sessions for Fall 2022

Using Zoom in Canvas, 9-10 am, Aug. 17 | Add to your calendar
Get up and running on Zoom quickly! Join us to learn more about using Zoom in Canvas. The session will cover how to schedule, host, record, and share Zoom recordings in the Canvas.
Join Session: https://gatech.zoom.us/j/96557622874

Ed Discussion, 10-11 am, Aug. 17 | Add to your calendar
Join this session to learn more about Ed Discussion. Ed Discussion is an online threaded discussion platform that supports document and image upload, math equations, embedded video, runnable code snippets, and image annotation.
Join Session: https://gatech.zoom.us/j/96557622874

Qualtrics in Canvas, 1-2 pm, Aug. 17 | Add to your calendar
Make Qualtrics part of the learning experience in Canvas. This training session for Georgia Tech faculty will demo the Qualtrics LTI app in Canvas and how you can add surveys as Canvas assignments. This session will walk you through different use cases and our partner Drieam (developer of the LTI app) will share best practice experiences.
Join Session: https://gatech.zoom.us/j/96557622874

Canvas Overview, 10-11 am, Aug. 18 | Add to your calendar
Overview of Canvas including general navigation, content creation and assessments.
Join Session: https://gatech.zoom.us/j/96557622874

TurningPoint, 1-2 pm, Aug. 18 | Add to your calendar
Join us for this session to learn about using TurningPoint. TurningPoint is an engagement and assessment tool that supports student interaction and participation in real-time using a clicker or mobile device.
Join Session: https://gatech.zoom.us/j/96557622874

Blackboard Ally, 10-11 am, Aug. 19 | Add to your calendar
Join this session to learn more about Blackboard Ally. Blackboard Ally is a tool available within Canvas that provides instructors with guidance on how to create accessible learning materials for all students.
Join Session: https://gatech.zoom.us/j/96557622874

Padlet, 11 am -12 pm, Aug. 19 | Add to your calendar
Let's talk about Padlet Backpack! What makes this fun, intuitive tool different and what are some of the ways you can use it to help bring your classrooms to life? In this session we hope to show you how to get the most out of Padlet, and learn how to create fun and engaging collaborative spaces for discussion and education
